uPVC Sliding Doors

Fensa offers a versatile range of uPVC sliding doors, available in both 2-track and 3-track configurations to suit your space and design preferences. Engineered with advanced German technology, our sliding doors ensure smooth operation, superior insulation, and enhanced durability. For added convenience and protection, we also provide an integrated mosquito mesh option, allowing fresh air to flow in while keeping insects out. Elevate your living spaces with Fensa's seamless blend of functionality, aesthetics, and comfort.

uPVC Sliding Windows

Fensa uPVC sliding windows come in 2-track and 3-track options, ensuring smooth operation and space efficiency. Built with advanced German technology, they offer superior insulation, durability, and noise reduction. An optional mosquito mesh keeps your space ventilated while blocking insects.

KEEP BUGS AWAY

PULL DOWN MESH

Pull Down Mesh system will definitely add extra elegance and on upkeep to your abode in terms of remodeling and safety. This glass mesh enjoys features such as fire resistant, dust resistant, water proof and fust proof.

PLEATED MESH

Pleated Mesh was shaped by Japanese and perfected by Germans, ensuring innovation and quality. Avail an extraordinary mesh system with caterpillar chain in order to safeguard your house.

ZIG ZAG MESH

Zig Zag meshes come with a "Low Rise Threshold", thus enabling practically unhindered, no tripping, ingress and/or egress when crossing.

SLIDING MESH

Sliding Mesh screens are widely acclaimed for their compact design, durability and perfect finish. Sliding Mesh can be fitted on the already installed sliding doors & windows. It is available in various customizable options for customers to choose from.
